SUMMARY

Computer Science Engineering student with a solid foundation in programming and web development, skilled in Python, C, and JavaScript, with working knowledge of HTML, CSS, and SQL for building and managing web-based applications.

EDUCATION

Hooghly Engineering and Technology College (2023 - 2027) — *Ongoing*

B.Tech in Computer Science & Engineering, SGPA: 7.52

Jawahar Navodaya Vidyalaya, Dihibagnan (2016 - 2023)

10th: 80.4% | 12th: 72.6%

PROJECTS

Online Quiz Application (*In Progress*)

HTML, CSS, JavaScript

- Building an interactive quiz web app with score tracking and a timer using vanilla JavaScript.
- Designing a responsive UI with HTML and CSS for a smooth user experience across devices.

Library Management System (*In Progress*)

Python, SQL

- Developing a system to manage book records, issue/return tracking, and member details.
- Designing a relational database in SQL to store and query library data.

Simple Calculator Tool (*In Progress*)

C

- Building a command-line calculator supporting basic and scientific operations.
- Implementing input validation and error handling for reliable calculations.

TECHNICAL SKILLS

Languages: Python, C, Java

Web Technologies: HTML, CSS, JavaScript

Databases: SQL
